Transport is Our Business

Megatrans Ltd is a complete logistics concept for the entire transport chain from seller to buyer
in the fastest,
safest and most economical manner

Megatrans Concept

“Megatrans prides itself in understanding the client's needs”

We have been operating with the transportation sector since 2003. One of Megatrans prime objectives in carrying out business has always been to know the requirements of its customers and to be as close as possible to the client.

Offering more choice at a different level of requirements : -

from Air to Sea freight delivery services tailored at your demand.

We want our customer to sit back, relax and leave it to the professionals to take care of all your regular world-wide freight business needs with such facilities. We can cater for all our customers worldwide at the highest possible level, with our sister company base in the UK,

Megatrans can rely on this European platform for any specialised movement at a very competitive price compare to major local integrators.
