## Great Britain Concise 2013

*The leading Great Britain catalogue*

The 28th edition of this popular catalogue lists all Great Britain issues from the Penny Black to early 2013, including definitives, commemoratives, regionals, postage dues, departmental officials, postal fiscals, errors, first day covers, booklets, specimens, presentation packs, Post & Go Stamps, FRAMAs, PHQ cards and post office sheets ('Smilers'). Every stamp design is illustrated in full colour and listings include changes of watermark, perforation, shade and phosphor.

### Learn more about your collection

If you're a Great Britain collector, but you've never used the catalogue before, there is a helpful introductory section, providing answers to many of the problems encountered by collectors, while additional help comes in the form of a full design index and diagrams, including those for Machin decimal booklet panes. Prices are given for both unmounted and mounted mint stamps issued between 1887 and 1935 and on-cover prices are provided up to 1911. All are carefully checked each year to give an accurate easy-to-use guide to British stamps and their values, thus ensuring the continuing popularity of this widely used catalogue.

### Easy to use

The catalogue also contains a straightforward listing of Post Office Telegraph stamps, based on listings in the GB Specialised Catalogue, including major errors and specimens. Also included to help you catalogue your collection are a useful table of postage rates contemporary with NVIs and a commemorative design index, while 'small size' Decimal Machins are once again in a single section for ease of use.

If you're updating your Great Britain collection, make sure you've got the latest edition by ordering Great Britain Concise 2013 - the leading Great Britain catalogue.

# Printed Country Albums

Printed Country albums are the ultimate way of collecting and storing your collection with spaces for each stamp that a particular country has issued. They are presented in chronological order and come in a variety of formats. Supplements to the albums are issued each year to keep your collection up-to-date.

## Stanley Gibbons Printed Country Albums

### GB Windsor Range

Windsor albums are the most detailed Stanley Gibbons album available for GB and the only ones to provide stamp descriptions on the left hand page and spaces for mounting on the right. Updated with annual supplements. Windsor leaves fit both the 22-ring Sovereign binder and the Windsor Popular Springback binder. The Windsor range follows the GB Concise catalogue.

## Lighthouse GB Printed Albums

The Lighthouse Great Britain hingeless album offers superb detail and quality. Using the Stanley Gibbons Great Britain catalogue for guidance, each stamp is represented by a photo image and necessary technical information. Since Elizabeth II the commemoratives and definitives are housed on separate pages, as are regional issues and postage dues. Albums (size: 285 x 305mm) are finished in textured green material which is fully padded. Pages (size: 270 x 297mm) are ivory and have rounded corners.

### Peg-Fitting Albums

These albums offer an incredibly versatile home for your collection, with the 2 pegs holding the leaves in place. Simply pull the lever to release the pegs and insert or extract the pages as required.

### Ring-Fitting Albums

These albums allow quick, easy insertion and removal of pages and sheets. Available in 4 or 22 ring options. Please note: To open a 22-ring album safely, you must use the release levers at the top and bottom of the album. Please do not pull the rings apart.

### Springback Albums

These albums feature a sturdy spring that closes shut and holds the contents of the albums in place. To remove the contents simply pull the album left and right to open it slightly.

## Dual Wave UV Lamp

Ideal for detecting phosphor papers and inks for the majority of 20th century Machin stamps of Great Britain, plus Israel, USA, Finland and the early phosphors of Canada, Norway, Mexico, France, Hong Kong, People's Republic of China, Russia and later issues of Canada and Mexico.

- Shows fluorescent bands, papers and other devices
- Highlights cleaned pen cancellations and paper repairs
- Powerful bulb gives much stronger reaction than other lamps
- Effective in daylight/artificial light using special eye-piece
- Safe to use due to shielded UV light
- Spectrum of 254 to 390 nm both 'short' and 'long' wavelengths
- Lightweight pocket-size - ideal for fairs and exhibitions
- Long-life bulb will give 50,000 hours of use under normal viewing conditions

Stanley Gibbons Ultraviolet Lamp R2573 • £99.95 Batteries not included

*"Terrific...I was able to find the phosphor number of FH14 which I had not found with a standard mains UV lamp. The new SG UV lamp has paid for itself in finding one booklet alone catalogued more than the purchase cost in going through booklets that I had catalogued as p-. Together with the Pro10 I was able to record the phosphor, something I have been unable to do before"*

## The Stanley Gibbons UM05 USB Digital Autofocus Microscope

Allows you to capture an image of the whole stamp with ease and is ideal as a quick and simple alternative to scanning.

Whether you are creating your own album pages, sharing images of your collection with fellow philatelists, producing an image library for insurance or valuations or want to see your collection in greater detail, this microscope makes the process easier than ever.

Simply load the operating software on your computer, plug the UM05 into your PC and, with one click of the focus button on-screen, you will quickly receive the clearest images automatically.

- Autofocus option allows you to automatically zoom with a magnification of 1x80, (320x on a 22" monitor)
- Perfect for fine details such as errors, plate numbers and flaws
- Take photos (Still Image Resolution: 1600x1200 pixels (JPEG or BMP file))
- Record videos (Video Resolution: 1600x1200 pixels (AVI file))
- Adjust the brightness of the microscope's 4 inbuilt LEDs from your PC, allowing you set the microscope up on its stand and take multiple images without having to reposition anything
- Software provided features handy tools, including a useful measurement function to gauge the length, angle and area of anything you place under it
