Into The Fog | E Liquid

Into The Fog E-Liquid

NOW AVAILABLE!!!

- ▶ Into The Fog is a premium max VG E-Liquid (80% VG). This line has been created as a culmination of suggestions and recommendations of Global Vapor Supply clients and friends. Into The Fog is comprised of USA made ingredients and manufactured using the highest quality standards in the vaping industry.
- ▶ Vegetable Glycerin and Propylene Glycol are the base ingredients which create the perfect amount of Vapor with a mellow throat hit. All 6 flavors have highly advanced and complex profiles. The flavor profiles have been created using the best available flavorings on the market. They're available in nicotine levels of 0mg/mL, 2mg/mL and 4mg/mL which were created using USA Pharmaceutical Grade Nicotine.

Into The Fog E-Liquid

NOW AVAILABLE!!!

- ▶ The steeping process is a lengthy and painstaking procedure. From the moment the products are mixed, there is a detailed and intricate monitoring and storing formulation used to create our flawless E-Liquid. The handling and observation of these products is key to an unparalleled finished product.
- ▶ Into The Fog E-Liquids were created by industry experts with ample years of experience. Several years of trial and error were practiced to ensure the end result was a seasoned product that will withstand the fierce competition in today's vaping market.
