FACING ACNE

When battling with the acne, you generally ask
this question to yourself- Why only me?

HOW TO *ACNE PRODUCTS*

TIPS & TRICKS ON APPLYING ACNE PRODUCTS

- 1** To avoid acne, you need to avoid junk food and always keep your skin clean.

- 2** Effective medications are also available to acne such as Aziderm Cream, Melalite cream, Himalaya Arjuna, Retin-A-Micro, Silcream, Nexret cream; Benzagel cream, Clindac A, Vibra Tabs and Doxicip

H O W I T O C C U R S ?

Acne occurs when more amount of oil substance are present on the skin layer called sebaceous gland. When the skin pores are clogged with an oily substance, a large number of bacteria start growing because of which the bacteria get an adequate amount of nutrients and it starts growing and spreading to the large area of skin and cause a pimple.

Almost everyone is prone to acne, especially during their adult age. It not only affects your skin, but also your whole personality and emotions. It shows an impact on your entire life and reduces your confidence and self-esteem. Most of the people think that acne is a trivial problem when compared to other disease and problem.
