Introduction

AppJetty offers a mobility solution to your users in the form of MageMob Cart and helps them access your store and place orders through their mobile on the go. A must have extension for store owners, which allows their customers to place orders from their mobile. It is easy to download and quite user-friendly for your customers. Your customers can view your store and entire features on their mobile and place orders anytime from anywhere the search.

Benefits of MageMob Cart

- Allows your customers to carry your store with them anywhere.
- Extremely user-friendly, simple to manage by the merchants and easy to navigate by the end users.
- Increases customers outreach due to mobility and ubiquitousness of smart phone.
- Increases the overall bottom line of the business, benefiting the store owners.
- More satisfied customers due to store accessibility from iPhones and Android smart phones.
- Improves customer satisfaction and enhances online visibility of your business.

Installation & Activation

Installation Steps

Step 1: Check Permissions

Make sure the "app", "skin" and "lib" directories of your Magento and all directories inside it have full written permissions or set permissions on each directory equal to 777 or 0777.

Important! Change all permissions back after installation.

Read more about permission at www.magentoocommerce.com/wiki/magentofilesystempermissions

Step 2: Disable Compilation

Log into Magento Admin Panel and go to **System → Tools → Compilation** and disable the compilation. After Step 5, you can run the compilation process again.

Step 3: Upload Files

Upload all folders from the extension package to the installation directory of your Magento software using an FTP client.

Step 4: Clear cache

Go to System → Cache Management. Clear the store cache.

Step 5: Re-login

Logout and log back into Magento Admin Panel.

Step 6: Use Extension

Go to **System** → **Configuration**. In the left column you will see the new tab called Biztech Extensions. You will find Magento Mobile Cart under Biztech extensions tab.

Extension Activation

Step1: Get an activation key

Copy the activation key from the Order Confirmation Mail. OR Login into your account at website using the e-mail and password that you provided at checkout process.

Go to Downloadable Options and copy the activation key for the **MageMob Cart extension**.

Step2: Activate your extensions

Log into Magento **Admin Panel** and go to **System Configuration** → **Biztech Extensions/MageMob Cart Activation** and enter the activation key in the "**Activation Key**" field for the MageMob Cart extension then click the "**Save Config**"

How it Works?

Back End Configuration:

Please follow the below steps to configure **MageMob Cart** extension.

Go to **System -> Configuration**

In the left column you will see the tab **Biztech Extensions**. Click on it and go to **General Configurations**.

Step 1: General Configurations

- **Enabled:** Select "Yes" to enable the Magento Mobile Cart extension. The extension is disabled by default.
- **Display New Arrivals:** Select "Yes" to Display Newly Arrived products on Dashboard.
- **Display new products based on:** Select on which basis new products are displayed. If you select "Category wise" then list of categories would be displayed below.
- **Display Best Seller:** Select "Yes" to Display Best Seller Products on Dashboard.
- **Product Attributes For Search:** Select product attributes for search.
- **Make Search Using SKU:** Select "Yes" to enable SKU based product search.
- **Privacy Policy Page URL:** Select **Privacy Policy** Page from the list CMS pages displayed from the Website.
- **About Us Page URL:** Select **About Us** Page from the list CMS pages displayed from the Website.
- **Authorization Key to Send Notification:** Add Authorization Key, based on which Notification will be sent to the users.
- **File to send Notification in iOS:** Upload Certificate File, based on which Notification will be sent to the iOS users. Allowed file type is: pem
- **Is Full Site Secure?:** Select "Yes" if "Full Website" is secure like https.
- **Enable Https Configuration for Module:** If the full site is not secure with https, select modules which are secure.

Step 2: Order Notification

- **Notification for Order Status:** Select “Yes” to enable the notification for order status to be send to your customers.
- **Order Status:** Select the status of order for which you would like to send the notification to your customers.
- **Choose OS:** Select the OS from “Android”, “iOS” or “All” for which you want to enable the notification module.

Step 3: Theme Selection

- **Color name:** Select the desired color from the drop down list for your theme.

The screenshot shows a 'Theme Selection' window. It features a label 'Color Name' on the left. To its right is a dropdown menu currently displaying 'Orange'. A list of color options is visible below the dropdown: Orange, Firozi, Purple, Dark Blue, Sky Blue, Pink, Redish, and Gray. The 'Orange' option is highlighted in blue. To the right of the dropdown is a '[STORE VIEW]' button. Below the dropdown, there is a small upward-pointing triangle icon followed by the text 'Select Color name for theme selection'.

Step 4: Google Analytics

- **Google Analytics Number:** Google Analytics lets you measure your advertising ROI-Return On Investment as well as track your applications.

The screenshot shows a 'Google Analytics' window. It features a label 'Google Analytics Number' on the left. To its right is a text input field containing the number '123456'. To the right of the input field is a '[STORE VIEW]' button. Below the input field, there is a small upward-pointing triangle icon followed by the text 'Google Analytics lets you measure your advertising ROI-Return On Investment as well as track your applications.'

Step 5: Manage Banner Slider

Go to **MageMob Cart** -> **Manage Banner Slider**. A grid of banners (if added) will be displayed here.

Admin will be able to Export all the banner details in to a CSV file along with searching for a specific banner. Admin will have to click on **Add Banner** to Add a New Banner or **Edit** to edit an existing banner. Admin can Add / Edit following fields for the Banner Slider.

- **Title:** Enter the title of the banner you would like to display at the front end.
- **Image:** Click on the “Browse” button and select the image to upload for the slider.
- **Status:** Select the status whether to be “Enabled” or “Disabled”.
- **Choose Type:** Select the category type for which you want to display the slider.
- **Sort Order:** Set the Sort Order for the banner.

Click on **“Save Banner”** button to save the configuration. This record will be added in the grid of banner slider.

Step 6: Manage Offer Slider

Go to **MageMob Cart -> Manage Offer Slider**. A grid of offers (if added) will be displayed.

Offer Slider Manager [Add Offer](#)

Page of 1 pages | View per page | Total 2 records found

Export to: [Export](#) [Reset Filter](#) [Search](#)

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions [Submit](#)

	ID ↑	Title	Offer Thumbnail	Status	Sort order	Action
Any ▾	<input type="text"/>	<input type="text"/>		▾	<input type="text"/>	
<input type="checkbox"/>	1	WOMEN		Enabled	0	Edit
<input type="checkbox"/>	2	MEN		Enabled	0	Edit

Admin will be able to Export all the slider details in to a CSV file along with searching for a specific offer. Admin will have to click on **Add Offer** to Add a New Offer or **Edit** to edit an existing offer. Admin can Add / Edit following fields for the offer slider.

The screenshot shows a web interface for editing an offer. At the top, there's a header 'Edit Offer 'WOMEN'' with navigation buttons: 'Back', 'Reset', 'Delete Offer', 'Save Offer', and 'Save And Continue Edit'. Below this is a sidebar on the left with 'Offer Slider Information' and a main content area on the right. The main area has a form with the following fields:

- Title ***: Text input containing 'WOMEN'.
- Image**: A file upload area with a 'Browse...' button and the text 'No file selected.' Below it is a preview image of a woman wearing sunglasses with the text 'AN EYE FOR DETAIL' and 'DOFF THE HISS'.
- Status ***: Dropdown menu set to 'Enabled'.
- Choose type ***: Dropdown menu set to 'Product'.
- Choose Product ***: Dropdown menu set to 'Stretch Cotton Blazer'. Below it is a small triangle icon and the text 'Select product to send notification.'
- Sort Order**: Text input containing '0'.

- **Title:** Enter the title of the offer you would like to display at the front end.
- **Image:** Click on the “Browse” button and select the image to upload for the slider.
- **Status:** Select the status whether to be “Enabled” or “Disabled”.
- **Choose Type:** Select the category for which you want to display the slider.
- **Choose Product:** Select the product for which offer is made.
- **Sort Order:** Set the Sort Order for the banner.

Click on “Save Offer” button to save the configuration. This record will be added in the grid of offer slider.

Step 6: Manage Featured Category Blocks

Go to MageMob Cart -> Manage Featured Category Blocks. A grid of blocks (if added) will be displayed.

Featured Category Block Manager [Add Block](#)

Page 1 of 1 pages | View 20 per page | Total 4 records found Export to: CSV [Export](#) [Reset Filter](#) [Search](#)

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions [Submit](#)

	ID	Title	Block Thumbnail	Status	Sort order	Action

- **Title:** Enter the title of the block you would like to display at the front end.
- **Image:** Click on the “Browse” button and select the image to upload for the block.
- **Status:** Select the status whether to be “Enabled” or “Disabled”.
- **Category:** Select the category for which you want to display the block.

- **Sort Order:** Set the Sort Order for the featured block.

Click on **“Save Block”** button to save the configuration. This record will be added in the grid of featured blocks.

Step 7: Manage Notification

- Go to **MageMob Cart -> Manage Notification**. A grid of notifications (if added) will be displayed.

Admin will be able to Export all the notification details in to a CSV file along with searching for a specific notification. Admin will have to click on **Add Notification** to Add a New Notification or **Edit** to edit an existing Notification. Admin can Add / Edit following fields for the Notification.

- **Choose Website:** Select the website from the dropdown list.
- **Title:** Enter the title to be displayed for notification.
- **Choose type:** Select the type from “Category Offers”, “Product” and “Offer” for which you want to send the notification.
- **Choose Product:** Choose the product for which notification is added.
- **Image:** Add the image for the notification.
- **Message:** Type the message content for the notification.
- **Choose OS:** Select the OS from “Android”, “iOS” or “All” for which you want to enable the notification module.
- **Scheduled Start Date and Time:** Select the date and time from which this notification will be enabled.

- **Scheduled End Date and Time:** Select the date and time from which this notification will be disabled.

The screenshot shows the 'Edit Notification 'Offer'' form. At the top right, there are five buttons: 'Back', 'Reset', 'Delete Notification', 'Save Notification', and 'Send'. The form fields are as follows:

Notification Information	
Choose website	Main Website
Title *	Offer
Choose type *	Product
Choose Product *	Flat Front Trouser <small>▲ Select product to send notification.</small>
Image	Browse... No file selected.
Message *	Get 20% off on women category.
Choose OS *	IOS
Scheduled Start Date and Time *	2017-04-21 11:34:00
Scheduled End Date and Time *	2017-04-29 19:34:00

Points to Note:
