engineers will ring you the day before, or the morning of installation to confirm their arrival time.

Then upon arrival, the satellite engineer will advise you on the best place for your satellite dish to go.

On average, standard installation lasts no longer than an hour.

When your dish and box are set up, you'll be given a demo on how to use your new satellite TV, including how to get Catch Up TV and rewind live TV if available.

Satellites such as Hotbird, Astra, and Eutelsat broadcast a wide range of Polish, French, Spanish, Russian, Italian, German, Arabic Albanian, Romanian and Bulgarian channels.

Turkish channels can be received by aligning a dish to Turksat or Digiturk whilst Greek programs are available on Hellas Sat.

Contact Us today or learn more here about satellite Installations by TV Aerials Warrington.

Freesat Satellite Dish Installer Warrington Freesat Satellite is a Free digital satellite TV service brought to you by the BBC and ITV. There are over 150 FREE channels available and this is due to increase Over the next few years around 200 Channels including HD and at some point 4K . All you require is a Sky mini dish to be installed and is ideal for people who Live in a poor reception areas or have to get there

TV signal from a Relay where they only get 20 - 30 channels. TV Aerials Warrington love the great functionalities that are available such as built in TV guide, subtitles and audio description.

No Monthly Subscription

As the name suggests, Freesat is available without any subscription charges. There is just a one off fee for the Freesat satellite dish equipment and installation but the BBC has announced that their system will remain free forever. But unlike the Old Sky Freesat system, there is no viewing card required to unlock scrambled channels; in fact there is no card required at all, just plug into your TV and enjoy. So for more information on Freesat and also Freesat+ and Freesat HD please click on the link <http://www.freesat.co.uk> or just give Gary a Call at TV Aerials Warrington.

The other advantage of Freesat, is that if you ever decide to upgrade to SKY TV for example or another satellite provider, all you need to do is purchase the SKY receiver box, everything else is already installed and ready to go (SKY and FreeSAT uses the same dish and cabling). So if your in a poor reception area and cant get all the TV Channels you should be getting then Freesat HD could be for you.
