Why do you need CCTV? Reasons why our York customers are having CCTV installed...

" We don't really get problems CCTV is simply for our own peace of mind " Barley Rise, Strensall, York

" Prowlers and opportunist thieves are all around " Newborough Street, York

Crime levels in York remain low. Only shoplifting and an increase in bike thefts spoil the clean sweep.

CCTV can provide an excellent tool in combating shoplifting for retail stores. Not only is it excellent at deterring theft, but also should a theft take place – you can use the evidence to prosecute.

Testimonials

We had four CCTV Camaras fitted – recording 24hrs – it's a great deterrent as the area we live has a lot of crime and we was broken into twice before the CCTV – it was worth the expense.

Mr Else

- **Full HD Footage**You will enjoy full High Definition footage during daytime recording ensuring crystal clear recording. You will also enjoy good quality footage at night thanks to the advances in CCTV technology.

How can we help?CCTV systems offer users a wide range of benefits. Following a small initial financial outlay, CCTV systems require very little ongoing maintenance and are an extremely cost-effective way of protecting your property, whether domestic or commercial.

CCTV is a strong signal you take security seriously: There's no better way to make the bold statement you take your property's security seriously than by having CCTV installed. It's well known that thieves will always target the properties that give them the least chance of getting caught. As soon as they see your CCTV system, they'll move on to a less secure property.

Control who can access your property from your living room: Unknown callers at your door can be frightening not just to older people but to anyone. With CCTV, you can see who is at your door without the need to open it, ensuring no-one gets access to your property that shouldn't.

CCTV never sleeps: CCTV offers protection of your property 24 hours a day, 365 days per year.

With new technology ensuring even night footage is high quality, you really do have round the clock protection. For a small initial investment, this unlimited protection is an awesome return on your money.

To ensure you continue to get the best results from your CCTV system, make a point of cleaning outdoor cameras on a regular basis with a lint free cloth and check that the cameras are still fixed on the areas that you want them to monitor.

Our team of expert CCTV installers in York have years of experience in providing CCTV systems for commercial and residential properties. Ask us for a free quotation today!

CCTV is especially useful for those suffering from ongoing criminal activity – whether you want to monitor, detect or record the movement of people or stock – CCTV is a cost effective solution.

Our team based in York can:

- Install CCTV Camera systems
- Maintain and repair existing systems
- Advise on the best equipment to meet your requirements

The use of CCTV in York

Last year a business security scheme in York that uses CCTV security cameras to catch thieves received a special accolade. Retailers against Crime in York (RACY) was presented with the Safer Business Award with Distinction for its work with the retail sector. RACY had created a network of traders in the city to share information on shoplifting and other crimes, while electronic security cameras were used to capture images of known criminals.

This came a year after businesses in York were told that if they wanted more CCTV protection they would have to find the money for it themselves.

Apparently the City of York run scheme had been a victim of its own popularity. Problems in future funding had arisen because there had been a growing demand for more and more CCTV

cameras as a result of the success of CCTV monitoring systems in combating crime.
