## Frequently asked questions

## How does Site Designer work?

Houzz uses the information on your professional profile, including project photos and reviews, to create a customisable website. Your new site is automatically optimised for desktop and mobile.

## How do I create my website?

Creating a website with Houzz Site Designer is quick and easy. First select a theme. Then customise by adding your logo, a welcome message and more. Click Publish, and you're done!

## Do I have to be a home professional to create a website?

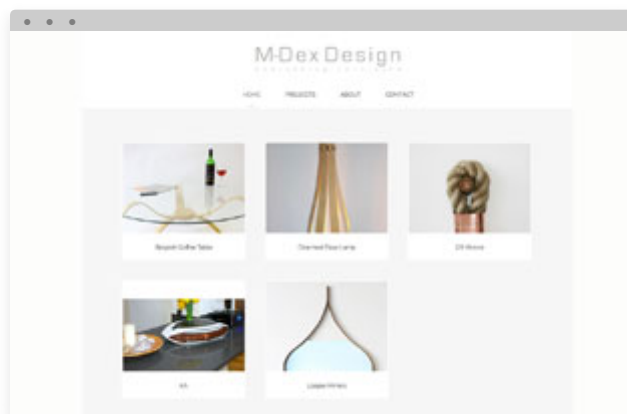

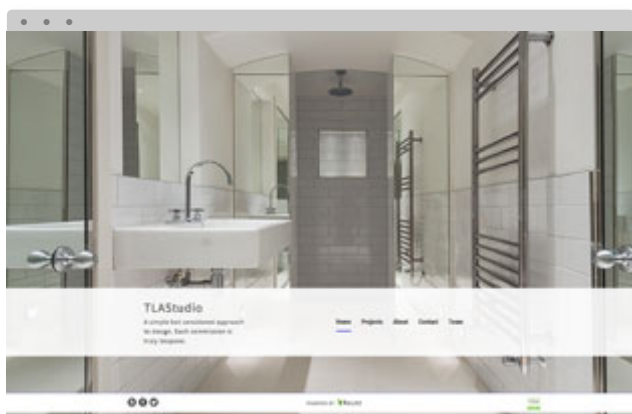

Yes. Only Houzz users with professional profiles can create websites with Site Designer. If you are a renovation professional but haven't created a professional profile yet, sign up for Houzz.

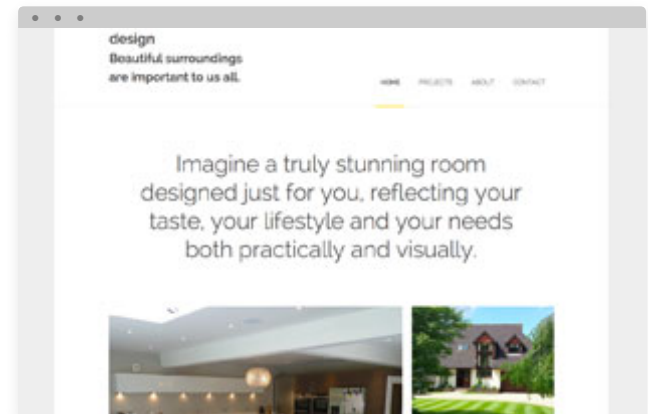

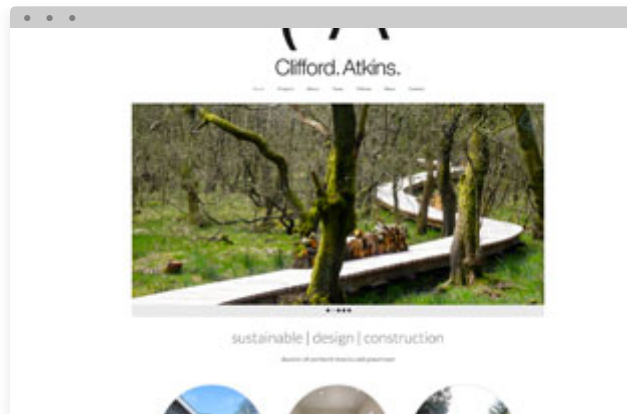

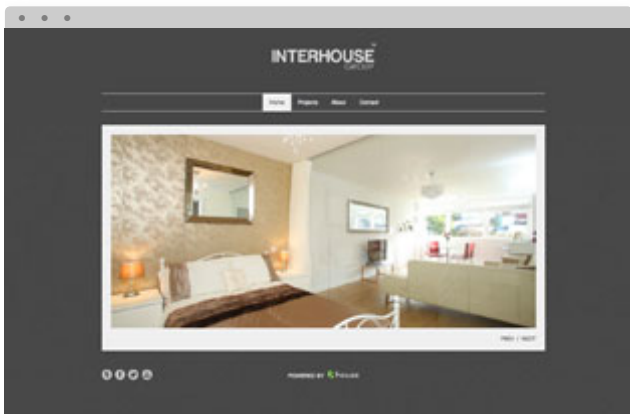

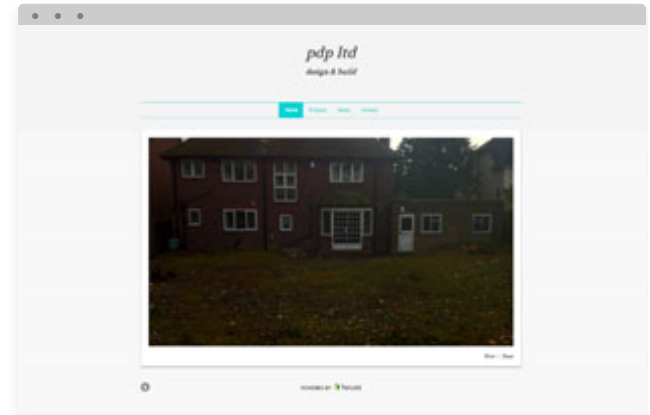

## Can I customise my site?

Yes! Houzz Site Designer provides several methods for customising your site. Choose a theme, add text and choose the photos you want to feature. You can even customise the fonts and colours.
