Hello Mr Ferguson,

Let's help you make your money go places.

With new investments and our global financial expertise.

Looking to a positive future, we're writing to you about some exciting new investment opportunities and a digital tool that could help make your money start to really go places.

So, whatever you are looking to save for, future needs, your children's education, or retirement, our experts are always here to help you.

With some new mutual funds, 'green' funds, with an emphasis on lower carbon emission and carbon neutral companies you now have more options for longer-term investment.

An easier way to invest

Our new digital tool lets you complete and return documents seamlessly online or on mobile - no more printing, signing and scanning back documents.

Don't forget, you can also take advantage of our Wealth Insights, a useful tool we've created to help you keep track of current market activity.

Please remember that the value of investments, and any income received from them, can fall as well as rise, is not guaranteed and you may not get back the amount you invested. This could also happen as a result of changes in currency exchange rates, particularly where overseas securities are held or where investments are converted from one currency to another. We always recommend that any Investments held should be viewed as a medium to long-term investment, at least five years.
