#### \*Explaining your gas usage

Not all gas is created equal. We convert gas units from your meter into kWh to make sure the energy output of your gas is priced consistently. We do this using the following formula:

Meter units used		20
Volume conversion factor		x 1.00
Metric units		= 20
Volume correction		x 1.02264
Calorific value		x 39.5
Convert to kWh		÷ 3.6
<b>Energy used</b>		<b>224 kWh</b>
